

Letter From the Sellers:

We love our home and hope you will love it too. It was on the market one day before we were fortunate enough to find it.

We are heartbroken to leave this place of comfort and memories, but family needs are pulling us away from the Triangle area.

Over the past two and a half years we have put in loving hours and effort to enhance and decorate our home. We have built a space for many fond memories as we fenced in and transformed an area of "woods" into a backyard. Gradually we updated the style and decor of the home by replacing almost all the flooring and painting most of the walls in the home.

For us, this was a home in which to build a family, and whatever this house may mean to you, we can promise it will be a spacious and yet warming place for you and your loved ones in one of North Raleigh's most coveted neighborhoods.

Best wishes and luck in your home search.

Please contact our realtor if you love this house as much as we do.
